PRODUCT STRATEGY

1
Identifying Student and Tutor Needs

- Interview and survey students and tutors
- Determine their wants and needs from feedback
- **Resources needed:** willing student and tutor participants, interviewing process

2
Fulfilling Technical Session Needs

- Compile technological requirements for the tutoring system through **third-party apps** (Zoom, Docs, PayPal, etc.)
- Later create and implement features within our website to enhance user convenience
- **Resources needed:** third-party apps, web developer

3
Gathering Student/Tutor Information

- Secure students and tutors interested in using our product
- Create profiles for them that have information about their preferences and other identifying information
- **Resources needed:** web developer/ engineer, user database, willing testers

4
Pairing Students and Tutors

- Determine how to pair students and tutors together based on their profiles
- Assess the pairing algorithm's efficiency in establishing a strong tutor-student connection
- **Resources needed:** third-party apps, student/tutor profiles, data analyst, software developer

5
Session Execution

- Execute successful tutoring sessions between students and tutors
- Incorporate automated icebreaker and check-in prompts to facilitate connection
- Collect initial user feedback
- **Resources needed:** third-party apps, web developer, scheduled sessions

PEERPAIR PRODUCT ROADMAP

Q4 2023 - Q1 2025

November 2023

Month 1

- Complete initial customer research
- Recruit students and tutors for beta test
- Start connecting with schools

Winter 2023

Q1

- Gather and store student and tutor information
- Manually create initial pairings for test phase
- Create and execute pilot tutor training course
- Execute early sessions through third-party tools with suggested prompts and gather feedback

Spring 2024

Q2

- Market ourselves to schools and other partners through direct pitching and online advertising
- Implement and test prototype for profile matching algorithm
- Refine and formalize tutor training course

Summer 2024

Q3

- Begin developing in-website session tools (video conferencing, note-taking, etc.)
- Finalize first wave of school partnerships
- Finalize terms of service for consumer-facing beta test
- Launch tutor newsletter

Fall 2024

Q4

- Finalize prototype for functional in-website tools and begin user testing
- Begin implementing tests for school enterprise tutoring packages
